

Design, Build and Run Modern Enterprise Applications

Mar 14 • Jul 25 • Oct 24, 2024

Application Architecture Summit features 6-10 vendors who will show how to deliver successful apps for modern digital businesses.

Topics

- Kubernetes & Microservices The Keys to Successful Cloud Apps
 Today, 80% of apps are cloud-facing. Learn how Kubernetes and microservices deliver automation, CI/CD pipelines, easy deployment and less complexity.
- Low-Code Trends Platforms for Speed & Productivity
 Model-driven development and AI/ML are letting non-technical staff quickly deliver business apps, process automation and workflows. Learn how to unlock low code to bridge the skills gap.
- Intelligent Automation RPA, AI & More
 See the latest on Robotic Process Automation, orchestrated workflow and modernizing crucial business process apps.
- Distributed Integration Key to Application Success
 Today's application architecture uses componentry, services, business logic & microservices. Discover how agile integration, APIs and iPaaS power modern business and workflow apps.
- Modernize / Migrate From Legacy & Monolith to Cloud
 F2000s still hold vast mission-critical legacy assets -- apps, languages, data and processes. See today's successful strategies for app modernization, migration to the cloud.

Fast Facts

Overview

Concept: 6-10 leading enterprise vendors present
 Speaker Opp: Webinar Style Presentation - 30 minutes
 Company Size: 70% > 1k 25% > 25k employees

• GEOs: 75% United States

Production: 3 weeks in advance via Zoom

No Hassles: Introduce IDN to your speaker & we take over

IDN Deliverables

Leads: All sponsors get complete registration list

• Guaranteed: 700 guaranteed - 800-900 average

Metrics

Contact: You get all registrant contact info

Attended: Who attended live

Viewed: Who listened to your speaker

• Touched: Who viewed your white papers and demos
